- English (Fluent)

GEORGE HOLMAN

STUDENT AT UNITEC

STUDYING BACHELOR OF COMPUTING SYSTEMS

PROFILE

My name is George Holman, an aspiring Software Developer who is currently studying a Bachelors Degree in Computing Systems at Unitec Institute of Technology. I have a problem solving mindset, able to adapt on the go, and always eager to learn and share my knowledge with people I work with. I am enthusiastic about the theoretical and practical knowledge I learnt throughout my courses, especially full-stack web development, and I am look forward to applying these skills to real world issues. I am actively seeking out any graduate employment available within the field of IT.

WORK EXPERIENCE

● ICIB BROKER WEB

Nov 2023 - Feb 2024

Processor - Casual Employment

- To provide processing support to Servicing Broker. Responsible for ensuring that information received from servicing broker is adequate to permit the accurate and professional presentation of client insurances to markets for use. Discussing with clients to fill out data accurately.

● The Yummy Fruit Company

Feb 2022 - Jun 2022

Packhouse Worker / Tray Filler

- Stacked boxes of apples onto planks for shipment, was later tasked with filling trays and additional jobs when needed after communicating with higher ups.

ACADEMIC PROJECTS

● React / Django Rest Framework Website Project

[Link to Rest Framework Project](#)

[Link to React Project](#)

- Front and back end were developed, producing a booking reservation website that used Vercel serverless postgres for user data, booking data, and secure API calling.

● Attendance Cloud Canvas Project

[Link to Project](#)

- Worked with teammates where we guided lovable-dev to produce an student attendance form for teachers to be able to capture and record attendance of students in class, late or not showing.

INTEREST

- Taking care of animals
- Learning new concepts in artificial intelligence
- Collaborative software programming
- Gaming with friends

Full Drivers License & Owns Transport
